

Business Energy Savings Program

Free Business Energy Assessment

Identify long-term, cost-effective energy saving opportunities

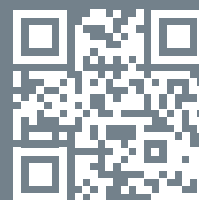

A free energy assessment includes:

- An analysis of your building's lighting, HVAC, compressed air systems, refrigeration and more
- Systems, maintenance and operations review
- Comprehensive report of energy efficient opportunities with applicable Evergy cash incentives

What to expect:

- A business assessment usually takes 1-2 hours
- Your Business Development Representative reviews current building energy demand relative to similar, energy efficient operations
- Referrals to other Evergy programs your business can work with
